

I attach research publications commissioned by Publicpolicy.ie which may be of assistance to the Commission.

1. An Analysis of Public and Private Sector Earnings in Ireland 2008-2013 is here <http://www.publicpolicy.ie/wp-content/uploads/UCC-PublicPolicy-22-June-16-1.pdf>

This report analyses public and private sector earnings in Ireland 2008-13. Data is used only for over 650,000 individuals who were in employment for the full period 2008 to 2013, worked a minimum of 48 weeks a year, and earned at least €10,000 a year.

2. The Valuation of Public and Private Sector Pensions: Some Issues is here <http://www.publicpolicy.ie/wp-content/uploads/The-Valuation-of-PPSP-Some-Issues.pdf>

I would be happy to provide any clarification if required.

Dr Donal de Buitleir
